GENERAL NEWS.

Correctures as to Chief Justice Waite's Successor,

A MAN WITH EIGHT WIVES

An Incident of the Recent Bilmard in New York-I breatened Oprising in Veneruela-Oon

depths at 1 hr. Dickness undoubtedly stand nearest lise head. A Western denotes and to far "There is so use heter qualified than sudge Thomas Wister, one of Minus one's representatives in cigness. He is a man of great learning, and wester yet lead to be a man of great learning, and wester yet lead to the house speak of him is consection with the place with the wish that is right get it but mout that he has some if of character which render it extremely improvable that the precident will take him in the hone, in with he is so thoroughly useful to give him a paid aloffice, and that, too, he highest in the land borne of his most intimate friends express the opinion that there is so foundation for its report that he is being pressed for the goalting. The general opinion evens to be that a Northern democrat will be appointed.

Mr. Breckenridge, of Kentucky says he would

Mr Brokenridge, of Kentucky says he would the to see the predict appoint furtice Field to he chief justice-lip and Mr Cartiele as associate justice, cr. if Justice Field's age was considered a bar to his actionation, the would like o see his Cartisle as acquaitation, the would like o see his Cartisle as acquaitation, the would like o see his Cartisle appointed chief justice. Ex-Gov Hoa ily, of Ohio,—at present of New York—is suggested by some as a probable successor to the lare chief justice. Lutil the chief justice, shall be appointed, custice Miller will be acting chief, and his official title is "senior associate justice" All write and other papers are thus signed by him.

It might be in the line of democratic expediance to appoint a man from Indiana, and the name of Ex-Senator McDonath antically suggests likely mest prominently here, as does that of Ex-Senator Thurman from Ohio, but, in fortunately, they are both beyond the religing age. Next to \$1 \text{ n.sid}, most generally mentioned, is that of Senator Turple who is a very able lawyer.

Able lawyer.

Other emis ent men, whose na nes and claims are fresly carrassed, are those of Snilcttor-General freez A. Jenkins, of Pennsylvania, Judge Jimms, Judge Johnson of Tennessee, Judge Himms, of Alaban's Meivil a R. Fuller and Judge concey, of Chicago Attorney-Geocral Carland, J. Randolph Tucker, of Virginia, Postmaster-General Dickinson, Seorstary Vilas, Wm. R. Morrison, Assistant Postmaster-General Stevens, Chief Justice Bingham, of the District of Cotumbia, and Samator tray, formerly Attorney-General, of Delaware

MUCHLY MAKHEED

A very Rigamous man in the Untries of the Law
FINDLAY, Ohio, March 25 — Hudson Chaplin was arranghed on the charge o' bigamy, and deaded guilty. The following is a list of women whom, under various aliases, Chaplin is charged, with merrying. Miss Corac Careon, of Greenville, Ind. Miss Nottia Webster, living in a small village in bouthern Illinois, Miss Carte K. Black, of Osage, Illinois, Miss Goalt, of Bowling Green Rentucky, Mira Flora Frey Ferger, of Bowling Green, Ohio. In addition he married a wealthy woman of Columbus, Olio, and a plantier a widow living at Haton Rouge, Louisiana. From most of these women he obtained sume ranging from *160 to \$1000.

A LUNG WAY ABOUND, Reaching Through Cable One Part of Not York by Way of London

Reaching Through Cable One Part of New York by Way of London

San Francisco, March 25 — A telegraph item from New Lork in one of to-day's papers says haw lorkers are still wondering how anything could have happened that would have empended besiness on Wall street—be great wheel upon which they believe revolves all the fibrackal interests of the new world—and out if New York from any connection other than that efforted by the Mackay-Sennett cable. Well street was a great deal further from the hotel center at Twenty fifth street than was London, for you could cable from ether to the Hoffman house or Wall street to London when you could not belegraph from the Hoffman to Wall street one o' the big London broker, in the hight of the bilizzard, found brinself up town with no way to reach Wall street. Cabmen refused \$50 bills, and all wires were down Suddenly a thought struck him. He went to the Commercial cable office and cabled to his London correspondent, who, in torn, cabled to the Commercial office at Wall and Broad streets, and within a short while an answer came from Wall street to the broker up town via London

NEW YORK, March 25—16 seme circles the eport is circulated here that the taking on a rot the United States ship Penessols of the risms of the great patriol, Gen. Jose Antonio Barz, of Venezuela, means semething more than the mere taking of the hold to its proper home It is expected that when the body reaches Gerrans, Venezuela, three weeks hence, the first step in the bold set scheme for political revolution will take place Barz's body had isin here for fixen pears. Venezuela sent a committee here to bring back the dead patriot, the proposed scheme being in the interest of Gen Guzman Blanco Bance has tried for years to work up Venezuela against treat Brit alb, as the latter bat proposed to erect a fort at the mouth of the Grincoc river and had taken civil possession of a tract of land batween british (winna and Venezuela and now it needed only a spark to fire the train which led to the advance against foriana, and Bazz's obsequies, it is hoped by Blanco's party, will be the spark. Then the Blanco party, will be the spark. Then the Blanco party, will possesse the venezuela and look for support from ether borth American coluntes. In case of hostifities the Venezuelana look for support from ether borth American coluntes, in case of hostifities the Venezuelana look for support from ether borth American coluntes, in case of hostifities the Venezueland will aid Venezuela, by declaring and upholding the tensts of the Moorce dectrine to the letter. Arms and ammunition have been shipped at various times to Venezuela, and everything is ready for the uprising

C S STEAMER AI BATTOSS.

New Your, March 25 — Mail advices from Panamas say. The United States eleasmer Albatross arrived off Taboga Island, in Panama bay, on the 16th inst., from the southeast. The Albatross, as is known, is on a scientific mission. Her officers express themselves well contented with their voyage and its results thus far. An inter-sting and extensive collect on of fish have been made. The ship will in a few days run a libe of dredging from the port to Galapagos island and thence to Acapulco and San Francisco. She will probably with the waters of Oregon, Washington territory and Alaska.

HEANY W ND AND SNOW-NORM
ST PAUL, March 25 — As severe snow and windstorm which raged all day in Northern Wisconsio, Minnesota and Dakuta, approached from a reuthwesterly direction being driven along at a thirty miles an hour gait. The snow, which is very heavy and packing as it falls, has failen to a depth of from three to five inches Street car travel has been alandened, and padsirians experienced great difficulty to making their way. Trains on most of the railroads are from to e to seven hours late, while trains on the Hestings and St. Faul and kausas City has heen wholly abands ned

Agent—"No, it's ladd out till next week, so that we can get it mans in their right in grees and have we can get trains in their right places and have en all on time." Man walts till next week and goes to San Francisco yesterday.—Burdette.

"A Back Sumber"

The present ininitier of the United States to the court of St. James, Mr. E. J. Phelipe, appears to be what is termed. "a back fursible," as far as relates to matters in his own country, while he has absorbed some English notions which are quite at variance with American idees. He has been writing an article for the Ninteenth Century, an English magazise, in which be attempts to enlighten the English people respecting our system of government, take and federal He calls it "a concuss and accurate utilize," and it will probably be anospied as such by English readers. Mr. Phelps should ome home and familiarize himself with the modern history of the United States, and with he fundamental principles of its government, He is not deing either himself or his country credit in the diplomatte service.

VOID OF TRUTH OR HONESTY.

False premises, misstatements, misapplica-tion of facts out of joint, mistaken conclusions; all apparently without rational purpose and coming to nothing—this is the rare com-pound which we find under the head of "Editorial Correspondence" in the Walla Walls
Union of last Saturday. To follow the writer
through all his curious wantings and unwindlogs would be a labor out of proportion to the subject, but one or two of his observations we

cannot pass by. He ears:
If it is recorded that Portland ever tent a beliping hand to the interior I have not seen that the ord. In this statement, if it he as apped literally, there is perhaps nothing worth notice, sinds the ignorance of a fact on the part of the Walls. Walla editor could scarcely be called a den al of it, which less a demonstration of its non-paist ence. If all the records that the Walla Valla editor has never seen, if all the things in differ has never seen, if all the things in Heaven and Earth undrempt of in his philoso-phy, in other words, if all that he desen't dro were this dry wiped out of existence, some bes-important universal facts might be missing to-

But the positive tone of the remark above quoted indicates that the clover writer has by indirection sought the severity of direction. He would deny, it seems, that Portland has sven "lent a belping band to the interior." swer let us say that Portland lond a helping hand to the interior when she established navigation on the Columbia river and transportation over its portages more than a quarter of a century ago; again when she built mining ditches in the counties of Eastern Oregon; again when she developed the mines at Granite creek and chewhere in Eastern Oregon; again when the O. B. & N. Co., whose stock was and is largely held by Portland men, built roads into the Colmed by Fortram men, built roas into the Cu-imbia river basin; again when her jabbing houses "carry" the "interior" to the axtent of many millions of dollars; again when milli-built with her capital grind flour at Dayton, c. uch gold out of rock in Baker county and Coor d'Alene, and make woolens in Union Cour a Alene, and make woolens in Chien country again when Portland money pu's up brick buildings in Walla Walla and else-where; again when Portland money builde roads to Coour a Alene and Pine creek; again—but where is the use of reciting facts known to every man of intelligence? Even the Walla Walla editor must have some hint of these things, for he forstalle cut cism by adding that Portland has found her relations with the interior profitable. Vel. true; this is the way of business always; reciprocity is the only rule by which one community can with only rule by which one community can with seil-respect accept the "helping hand" from an-other; but possibly the Walta Walla editor would have something in the way of charity? Further on this rare observer says:

At the present time Portland is engaged in a deeperate struggle to prevent the producers of the interior from securing the Indreaded price offered them at Tacoma for their grain.

Here we lose pattence. It is not possible that there can be a man so stopped as to miss the whole point of Portland's protest against the lease. We cannot believe it. There is want of honesty in an assertion so apart from the truth. Mere prejudice and outloses could never so fac miss a plain fact. Postland is striving, largely in her own interest, to be sers, to defeat a com bination whose their purpose is to prevent the competition so much wished and so early needed by the producers of the Columbia river hash. That combination would destroy the advantages of a level road to the sec. Portland knows well enough that the Columbia river roule cannot hold the traffic of the country unless it is made cheaper than the Cascade mountain routs. This route, it is believed, has advantages from nature, which, if not nullified, will make it always the cheaper routs. Portland is not struggling to "provent the producers from securing an in-creased price at Tacoma," but to destroy the successful conditions which now prevent Portland from returning the producers as much or more than they can get at Tacoma.

Portland does not demand that more shall be charged for hading wheat to Pores sound than to Portland; but that there shall be no prohibi-tion against its being basiled to Portland for less than to Tacoma.

PRESIDENTIAL STRAWS.

Judge Greeham leads as the choice of the members of the fillnois legislature for president of the United States. The nominee will come from the West, and Western men say Depow has no standing with their people. John Sherman leads in Pennsylvania, where he has the support of Don Cameron, who married into the family. State Senator Vedder, of New Nork, and Gen. John Beatty, of Ohio, predict that Blatne will yet be nominated in spite of his desharation. Gen. Beatty puts it in this way: "Sherman will have the half-hearted support of Sherman will have the hair-hearted support of the deligation from this state (Ohto.) Lowa, Indiana and Hilnols will have favorite sons, and after a few ballots and much wrangling, some fool will rates the yell for Blaine. There will probably be a break, and Blaine is likely to be Ex-Senator Dorsey is for Sheridan. We

quote:

Pre-eminently Sheridan. He ought to be the nomine if the party wants success made certain without opposition. With Sheridan for president Bioron for vice president and Warner Miller for governor of the state of New York, a good platform and a worthy mational committee, no-deniceratic combination can be made to beat it. I don't believe Gen. Sheridan or any other republican has a right to decline to serve in this capacity if called more to date. He served is thought to the instance upon to do it. Her services belong to the dation that he has bonom I said to the party that his honored him and wishes to honor him more. I belt ored min and we had to before from more. If believe, he will accept which the time comes. He is free from all whiteness and compromising completes thous, and would once the party all over the output from No one has been or can be mentioned who would be as stream at the state of New York as he, and with Morton and Miller on the ticket with him and with Morton and Miller on the ticket with him this state will give the largest republican majority in its history.

Failing to nominale Sheridan, Darsey thinks John Sherman the strongest man. Greshem has considerable strength in Minnesote and Wisconsip, and in Fenusylvania is next to Sher-man, but the New York Tripenedamns bim with faint praise, as do the other thick and thin Blaine organs, who refuse to forget that Greeham was in Arthu,'s cabinet, and was on terms of warm personal friendship with Grant and Conkling. It is very clear that the Blaine fac-tion in New York state do not favor Gresham for the nomination, sithough there is no ground for apprehension that they would not support

There is no danger this year that the nomines of the party will get other than hearty support. Allison, who has been endorsed by the Iowa state convention as their candidate for president state convention as their candidate for president is of Irish ancestry, was born in Ohio in 1822, was bred to the law, settled in Dubuqe, Ia., in 1857, was elected member of congress in 1822, and took his seat in December 1833, at the same time with Blaine and Gartield. He served in the time with Bianne and Garneld. He served in the lower house continuously until 1870. In 1872 he was elected United States senator, and has served continuously in that body for fifteen years. He is an able man, wise, firm, cautious, well-balanced; who hever wastes his force in profitless quarrels with his associates or opponents. His relations with Blaine and his friendly seem allows here. have always been friendly, and he will doubt-less enter the convention with a good prospect of securing their support.

Ex-Senator Dorsey denounces "dark horses,"

saving that the republicans have been nearly saying that the reproducane days been hearily kicked to death by those they have carried in the past. Nevertheless "the dark horse" has carried off the cup more than once in both par-ties. In 1824, John Quincy Adams, a "dark horse," was elected. In 1832, Van Buren, a "Mark horse," groomed and jeckeyed by Au-drew Jackson, defeated Calhoun for the demodrew Jackson, defeated Calhoun for the demo-cratic nomination. Compared with Clay and Webster, Harrison who was elected in 1846, was a "dark horse." In 1844, James K. Polk, a "dark horse," carried off the democratic nomi-Bation, although his competitors were Van Boren, Buchanan, Cass and Cathoun. Zachary Taylor is 1848 won the northination over both

NEWSPAPERHACHIVE®

Clay and Webster. In 1852, "the dark horse" Franklin Pierce was nominated over a veteran democratic statesman, William L. Marcy; in 1860, "the dark home? Lincoln entiooted Willi 1869, "the dark house" Lincoln outlooted William El, Seward and Salmon P. Chase; in 1872, the democrate bet their money on the "dark horse" Horses Greetey and lost it; the republicans in 1876 and in 1887 nominated and elected "the dark horse," and in 1884 were beaten by the "dark horse" Clevaland, who was nominated over Theirman, Bayard and Hendricks. Arthur, when nominated or type-president, was a "dark when nominated or type-president, was a "dark horse" of the properties o when nominated for vice-president, was a "dark horse," and fate made him president. The nomination of Hancock in 1880 man the selection of a "dark horse" that came dangerously

near winning the race.

There is no probability that the democratic nomination will this year go to a "dark horse," for Cleveland and his friends have already carefully stocked the pack and it only remains to go through he form or rather the farce of dealing the carde, but in the republican convention there are likely to be half a dozen candidates and under these circumstances it is not impossible that a "Sight hones" should again distance all the Blaine faction of the party, which is therefore, should conduce to act egether, it would be within their power to send "dark horse" to the front of the race in non-

OREGON AND TIN PLATE.

There is a company in Western Pannaylcania that is trying to have congress double the day an fin plate, so that their so-called infant indus-try can get on its feet. Mr. Randall, to please this firm, bus consented to double the present uigh tax on tip plate in his tariff bill, to the great injury of the canning industry of Oregon and other states. The demand for tin plate is enormous and rapid'y increasing. The impor-cations last year were 570.643,389 pounds. The duty, 1 cent per pound, yielded \$5,705,433 89

of revenue—urplus revenue.

Tin is not a mineral found in large quantities in this country, or in any country save England and one of the islands of the Mainy archipelago. Fin is the raw material of the vast canning industry of the United States. It is used largely in house building and in the manufacture of nearly all the domestic utensile of civilized life.

Since metallictin is not produced in this conn-

try and there is no duly on metal tin, why should there he a duty on the path, which is the raw material of the vast tin manufactures of the country in order to put money in the pockets of a few Pennsylvania capitalists? The present duty on tin plate is 1 cent per pound, quivalent to 84 per cent, ad valorem, and now Randall proposes to more than double this duty, bringing it up to nearly 80 per cent. ad vaterein. The Western Canned Goods Association, at their annual meeting in St. Louis, on the Sth of last month, passed the following resolutions:

WHEREAS, Food in tin cane is now consumed by the rich and the poor alike, and has become a nousehold necessity, and, Winzuras, A duty on tin plate is needed neither for revenue nor protection, it is therefore Resolved. That it is the unanimous sense of the Resolted, That it is the unanimous sense of the Western Packers' Carned Goods Association, composed of nearly all the cauning packers of Ohlo, Indiana, Minnesota, Michigan, Mitsocri, lowe, Trass, Kansas, Nebraska, Arkansas, Mitsalssippi and Colorado, in annual convention as semiled, that this duy should the at once remay sl. Resolved, That this association respectfully but carnestly petitions the senve and house of representatives of the United states, in congess as sembled, to pass a but he appending as possible placing the plate on the free list.

placing the plate on the free list.

Resolved, That each member of this association and every Western packer forward a copy of these resolutions to his senator and member of congress, at Washington city, with the request that they act in secondance with the prayers of this petition.

The action of this association has led one of the high tariff trade newspapers. Sloces and Hardware, to true the shardonment of the effort for a higher duty on the plate and substitute a bounty to the home producers of this article. Placing tin plate on the free list is sucported by a great many protective arist republi-cans, who do not consider it a proper article for the imposition of a high duty as we do not pro-duce metallic tin; do not manufacture tin plate, while our vast canning goods industry, and kindred the manufactures are severely burdened by the present high daty. Tin plate is one of the things that Oregon without distinction of party would like to see on the Iree list, for the same reason that they would like free sugar.

TEUE THERE-TRUE HERE.

The cost of keeping up the Eric canal is very considerable, and since railroads now run every-where, hauling freight alongside the "ditch," for as little or for less money than the lowest possible canal rates, there is always opposition in the New York legislature to the annual ap-propriation for canal maintenance. This year it helphaton to can animaliance. This year it has been especially strong, chiefly from representatives of districts not adjacent to the canal. It is urged that indern means of transportation has rendered the canal obsolete; that the call-reads do and always must do the transportation of the country through which the canai runs; also, that if there is any benefit from the canal it is purely local, and that to tax the whole state for its support is an injustice. Answering these arguments Hon. Hoscos Conking recently wrote a letter, from which we take the follow-

ing:

I believe in the maintenance, enlargement and freedom of this great artery of commerce, for reasons too many to be stated in a brief letter. Not no Buffalo alone, nor ter Buffalo and New York together, doep as is the interest of both, but for the state of New York-the whole state and all its

the state of New York—the whole state and all its sections—it is largely and durably important not only to take care of the canal, but to keep it up to the lines in the fullness of its usefulness.

Not only as a feeder, but as a regulator and safeguard, the canal is so reedful that the day will be ill starred when the people of the legislature shall turn deaf care or blind eyes to whatever nonest demands it makes on the state or its royonues. Had I vote or voice in the matter, that vote or votes would always be for locks long enough, and prism capacious enough for the boats and the traille willing to floot.

We have taken the radius to repoint this ba-

We have taken the pains to reprint this bacauce of its hearing upon the proposed upper Columbia their improvement. As a "regulator and a safeguard" an open river (aven by a system of portages, would save the producers of the Columbia basin enormous amounts of money. Even if never a bushel of wheat cambown by the river the existence of the waterway would control the price of rail carriage, limiting it always to a rate not higher than the cost of rive carriage. And not alone for the Colum-bla river basin, but for the whole state is it bla river basin, but for the whole state is it "largely and durably Important" that the river chould be opened. What is true respecting the Eric canal and New York state is true of the Columbia river and Oregon; and in a more im-portant degree, since we have not compelltion between railroads as New York has.

Strather M. Stockstager, of Indiana, who has been appointed commissioner of the general land office to succeed Sparks, is a native of indiana, and was born in 1842. He was a captain in the Thirteenth Indiana cavalry during the war. He held various small offices, edited the Corydon Democrat, and practiced law, and was a member of the state senate and was elected to the Forty-seventh congress, where he was chiefly conspicuous by his retiring disposition and extremely red hair and beard. He was in the same congress with Sparks and Atkins, and was a candidate for the commissionership of the general land office at the time Sparks was the general land office at the time Sparks was appointed. He was backed by the entire Indiana delegation in congress. When besten for the commissionership he took the second place, which he has held ever since, having acted as commissioner ever since Sparks's retirement. Being a candidate for promotion, he has maintained a strict neutrality on all public land questions since he became acting commisstoner, and as a result the work of the office has been largely at a standetill.

Speaker Carlisis, who is reported to have the inside track for the vacant chief justiceship of the supreme court is an excellent lawyer, although not in the first rank of his profession. He has the true judicial temperament, for his candor, honesty and absolute intellectual integrity as speaker of the house has won him the onqualified praise of all men without distinc-tion of party in congress. Carlisle was born September 5, 1835, in Kenion county, Kentucky;

received a common school education; has served in both branches of the state legislature, has been lieutenant-governor, was elected to the forty-fifth congress from the Skuth district, and has since been regularly re-elected. He was elected markles. For the control of the con has since been regularly re-elected. He was elected speaker December 3, 1883. He would make an excellent judge. He is in the prime of life, and nolike Lamar he did not take arms against the Union nor hold civic office under the Confederacy. As a Kentucky Unionist and un able representative of the New South, Carlisle's nomination would be heartly approved by particlic men of both parties. The president could trictic men of both parties. The president could hardly do better unless he nominated ex-tiovernor Hoadly, but Hoadly is not in full accord with the president and is not likely to be ap-pointed. Justice Field's nomination is probably out of the question on account of his age, while Carlisis will not be 53 until next September.

The Pennsylvania relicoad during the first year of the operation of the interstate law, ex-perienced a period of almost unprecedented prosperity, its gross earnings for the year in-creasing \$13,803,600, and not earnings \$3,600,400, the sunplus remaining from the lines earl of Pittsburg af or the payment of all interest, insufface and sinking fund charges, and a \$14 per cent. dividend, amounting to \$1.983.593.

It is the opinion of the New York Age, the organ of the colored man, that Judge Gresham would make the strongest republican presidential candidate. His war record and his fuorices decisions on the beach are what commend him

Two Spanish Protestants were recently im-prisoned and fined at Madrid for not kneeding in the street to the priest who was carrying the viaticum. They appealed in vain to article 11 of the constitution, which guarantees liberty of

The fact ione form prisoner in the city jail was allowed to walk forth into the glad survainer pesterday morning and the prison doors shood wide open during the day. This thing has not happened before for a long time. It does essem as it the world was growing better.

The Yale News of March 19 gives a list of the freshman class, at Yalo college, in the Al part of the first division of which appears the names of Hedges, as no of Mr. Jas. Hedges, of Oregon City, and Holcomb, son of General Marger W. E. Halcomb, on the Green was the Hedges, of the Co. Charles J. Newton, a trapper well-known throughout the West, was drowned in Green tiver, Ulab, in September fast. He was a native of Oregon, and is supposed to have relative lifeing somewhere in this state. If there are any such they will please communicate with J. E. Wing. Woodstele Ush.

tives living somewhere in this state. If there are any such they will please communicate with J. E. Wing, Woodside, Utah.

The suits pending between W. H. Smith and the Gregon Pottery Company have been compromised by the pottery company paying W. H. Smith \$500, and each party paying its own costs, and the withdrawat of all suits by both parties. Mr. W. H. Smith expents soon to start another sewer-pipe factory in this city.

There is a dangerous hole through a trap door

another sower-pipe factory in this city.

There is a dangerous hole through a trap door connected with the water main at the inter-section of Third and Lincoln streets, and someone has since a scanting into the hole to warm drivers of danger. As it was just such a thing as this which came hear causing the death of Mr. F. V. Andrews a few days since, it will be well to have the broken plank repaired at ours. One of the cattle injured in the accident on the P. & W. V. railway Friday, is still lying by the track and has had nothing to eat or drink since. It is so badly injured that it cannot recover and it should be put out of its misery. If no one else will do this some section hand or jous passing pligrim should shoot the poor bruts. Three other cattle which were hart are able to get around and feed and will recover.

THE ALLEGED TEXAS OUTRAGES, A Bad Showing Before the Senate Commit-

A Bad Showing Before the Senate Committee on privileges and elections must be on privileges and elections must this morning to investigate the alieged Texas outrages. Before the democratic senators arrived Senator Spooner said to Senator Evaris that the case seemed to have been fairly tried by the U.S. district storney in Texas, but Kirk was acquitted. "They first struck off from the jury senel the head of every republican and colored man. We subpensed the clark of the court, with instructions to bring on the records. The clerk has brought what purports to be a transcript of the stenographic report at the trial. It bears the affidical of the stenographer, who sweure that the appended two hundred and forty pages are a true copy of his notes. The testimony produced, however, is only fifty-three pages, being throughout testimony for defendant. It shows, however, that there was important testimony for the prosecution. What shall be done under the circumstances?" Senator Evarts rejoined with emphasis that the committee should bring all the parties to Washington.

Other senators having now arrived, the hearing began.

Clerk Hart, of the U.S. district court at Austick the senators and the U.S. district court at Austick the senators are the senators and the senators are senators and the senators and the senators are senators.

ing began.
Clerk Hart, of the U.S. district court at Aus-

Cleik Hart, of the U. S. district court at Austiu, said he had been unable to find the missing pages of the stenographic report in his office. His appointment was subsequent to the trial. Senator Pught understood the entire report was in the attorney-general's office.

Among the papers witness submitted was a message said to have been originally from L. Kirk to Dr. Batton Courtney, saying: "Things here look doubtful. Do your work." Tails is the message about which the committee tried in valu to get some information last year.

Several other witnesses were examined. One asserted that he had met Judge Kirk on the evening of election at Grabait precinct, the place where Kirk, when before the committee, swore he had not been.

where Kirk, when before the committee, swore he had not been.

E. D. Durffe, formerly telegraph operator at Burton, produced a copy of a telegram received by him, addressed to B. L. Arcy, and signed by Robert Sloan, eayling: "Grabalt has gone against the people's (Kirk's) licket four to one. What must we do? Liewellyn is overwheimingly against the." These are two of the voting places where the alleged frauds were perpetrated in the interest of Kirk's licket.

FIRES YESTERDAY

TWO FCOPS DAMAGED PROH DEFECTIVE PLUSS. A LUMBER WHARF BURNED. About 11:30 yes orday forenced an alarm was surned in from box eix for a fire at No. 306 turned in from box eix for a fire at No. 306 Third street, hear Clay, occupied by John H. Mallels. The fire caught in the pace between the ceiling and the roof from a defective fine. The fire department was quickly on hand and tore some clapbeards from the gable and introduced a hose, which soon subdued the stames. One of the fireness crawled is through this bole and allipping on the pastering, fell brough to the fluor below. The house, which was originally a cottage but has been raised and another story built under it, was damaged about \$150. The lower story is occupied by some colored folks, who, as well as the folks in the upper story. Temoved next of their furniture and goods, some of which were damaged slightly by water.

goods, some of which were damaged slightly by water.

At 5 v'clock yesterday afternoon fire was discovered in a lot of lumber on an unceyered wharf belonging to Nicolai Bro. & Co., in front of their old seah and door factory near the O. R. & N. boat yard in North Portland. Before the isames could be subdued the west end of the wherf, which is 2007 feet, was damaged to the extent of \$1000, and 50,000 feet of rough codar, worth \$15.50, went up in smoka. The old factory caugh fire, but was saved from destruction by the silvers of the firemen. The damage to it and unother small building adjoining was about \$2.00. Total loss, \$2150; up instrumes.

by was about \$20. Total tosa, \$2150; no instrance.

The fire was the work of an incendiary. Mrs. D. S. Murphy, wife of the day watchain on the premises, who lives about 300 rands not in of the mill, saw a toy about 16 or 17 pears old, wearing a dark suit, burry away from the wharf a little after 5 o'clock and run south varialong the old county road. A few seconds later a cheet of flame abot up suddenly from a pile of lomber near the west end of the wharf. Mrs. Murphy pelled to some men standing in froat of the Villard house that the wharf was on fire, and a telephone message was sent by Capit. J. W. Troup.

In response to these calls engines 1, 2 and 3 and the hook and ladder truck went to the freene, and all was ordered back except 25 and 3s. These were stationed on an incine leading to the river and two good theave warre

and the hook and ladder truck went to the receive, and all ware ordered back except 2's and 3's. These were stationed on an incline leading to the river and two good streams were thrown on the finance.

At 6:30 P. M. It is department was called out for a slight blaze on the roof at No. 110 Pina street, caused by a spark from the chimney. It was quickly extinguished and the services of the department were not needed. The building is occupied by B. Fleisher. Damage trivial.

At 10:46 leaf night Policemen Burton terraed in an alarm from box 15 for a roof fire in the two-story frame building on the west side of Foorth street believen Washington and Stack, used as a Chimse lodging house. A defective flue was the cause. Hamago nominal.

INTERCHANGE OF BUSINESS.

ABRANGEMENT MADE BETWEEN THE NORTHERN PACIFIC AND SOUTHERN PACIFIC LINES.

Mr. S. G. Fu ton, assistant general freight spent of the Northern Pacific, returned yesterday from San Francisco, where he appointed Mr. Thomas Knight freight solicitor for the con-The Northern Pacific has now freight and passenger agencies in the Hay city, which it is working for all the business it can get, and passenger Legacies in the Hay city, which it is working for all the business it can get, baving made arrangements with the Southord Pacific, which operates and controls the O. & C., for an interchange of business between California points and all points on the Northern Pacific except the Cascade division and also through points reached by that line. This arrangement was made so that freight can be shipped to or from San Francisco and all points on the Northern Pacific east of Spokene Palls by rail at the same rates as in effect by ocean and radil by O. H. & N. steamers, via Portland, and the Pacific Coast Steamers, via Portland, and the Pacific Coast Steamers, via Portland, and the Pacific Coast Steamers, via Portland, and those by rail and water. Points on the Cascade d vision of the Northern Pacific are not affected by the all rail rates, via the O. & C. and Portland.

In connection with the above, an arrangement has also been effected for an interchange of business originaling at, or destined for interior points in California on the Southern Pacific line, which will hears transportation of freight to and from those points at much more favorable rates than in effect hereforce, Saccamento, San Jose, Stockton and Marysville being placed on an acqual leads with San Francisco. Stockton and Marysville being placed on an equal basis with San Francisco.

THOSE HORBID STURGEDY.

THEY DROWN CALVES AND SHEEP AND BREAK UP A SUNDAY SCHOOL. The old gentieman from Sauvie's island who some time ago furnished several statements in some time ago furnished several etatements in regard to the stargeon which live in Stargeon lake on that island, was in the city pesterday, attending church. An Orkockian reporter, who is a member of the same denomination, met the bid man on the observation. met the bid man on the church house steps after meeting was out, and was pained to see that he was aging rapid, and looked worried and careworn. He said he eturgeon were getting worse and worse and made life a purden to him. This spring her took to coming out in his cast pasture and entiting his caltest og swimbing in the lake, and over a dezen of them were drowned. A short time since they raced a lot of sheep belonging to Everding & Farrell hint the lake, and dwouted thirly spring lands. At all events the sheep were driven into the lake, and dwouted thirly spring lands. At all events the sheep were driven into the lake and the lambs were missing. Some thought dogs were responsible for the miscalef, but he knew better. But the last and worst trick of the sturgeon was brasking up the Sunday school. A whole drove of these fish crowded hat the building where the Sunday school was being held and joined in the exartise, and their attempts at eluging were so horrible that the calderen and teachers were all driven away and the school broken up, and it was not considered advisable to attempt to hold meetings any more till the spring run of surgeon had stopped. "And this tages," with the met the bld man on the church house steps after meetings any more till the spring ron of sur-geon had stopped. "And this is why," said the old man, "I have to drive clear to Portland to listen to a stranger preach."

UNIVERSITY OF OREGON.

AN OESERVATOR" TO BE BUILT-A COURSE TO BE TAUGHT VITHOUT LATER OR GREEK.

The directors of the University of Oregon have decided to build an observatory for two trausit instruments, according to the plans prepared by Messrs. Williams & Emith, to cost in the neigh-

Messrs. Williams & Smith, to cost in the neighborhood of \$2000. The building will be built of stone and brick, and the plans include an addition for an equatorial telescope, to be built as soon as the just a ment can be procured. The board has also authorized a course of four rears to be taught, in which no Latin or Greek or any language except English is included. This is to accommodate people who do not care for linguistic studies. Students in this course will take two years with the sub-fresshman class and the first two years of the final college course and on graduating they will receive a certificate of proficiency.

and of realizating they will receive a certificate of proficiency.

The necessary style have also been taken for conferring degrees on the students attending the medical school of the University here. The degrees will be conferred on April 2.
The board has also passed the following resolution:

The court has also passes the following resolution:

Resolved. That in the opinion of the regards it is expedient and destrable that the alumel dinner te given at commencement by and under the auspices of the feedity.

This means that the faculty will supply fends for the alumni dinner and have the matter under their control, and thus be able to invite whom they thick proper. By and by a fund will be set apart for this purpose, as is done in other and similar institutions.

RIGH LICENSK IN PHILADELPHIA

IN WILL REQUES SALOORS IN Seven Wards 7.5

PUBLADELPHIA, March 19.—The license court, at present engaged in the examination of applications from the first even of the thirty-one wards in the city, and the effect of their finding has wrought consternation and surprise in the whole fraternity of salound heepers. Ry their action the judges have signified a policy of restriction and closes adherence to the new law that will result in the rejection of more than 10 per cent. of the whole number of more than 10 per cent.

To promote digestion, and or use as a stomachte, after the mid-day meal, Ayer's Cathartic Phils have no equal.

Moor's Revealed Remedy is not recommended out the strength of the age.

CARD OF THANKS.

I desire to express my sincere thanks to the heard of managers of the Baby Home of East Fortiene, the physician, and all who contributes to the comfort of my child during his last lines and death. Also, for the beautiful floral offerings.

MRS. P. BRASSARD.

Missacke, Whechesia, has been in the city for several days. He is one of the directors of the Missackee City Public Museum. This institution was started in 1857 by German citizans of Missackee City Public Museum. This institution was started in 1857 by German citizans of Missackee, who contributed some \$2.0,000 for the parolase of carlocities and then turned the maintained one to the provision that it should be maintained for the benefit of the public. Mr. Meinecke lass been visiting California, where he purchased a lot of rate minerals. He picked up here a handsome piece of petrified wood, a section of the strainer from a whale's mbuth, a builbio robe, and other articles which took he fancy. There has been come talk of starting a museum here, but so sar there has been nothing but this collectors for Emetern museums have about atrapped this coast of Indian relics, and there is extroely a shall mound or Indian grave left which has not been ransacked. There are several very fine private collections of Indian murbs and relice in this state which should be secured and kept here, or in a few generations Origonians will have to go East to learn anything about the people who once owned this state. As far as Indian are coherened, the residents of the state at the present time know about all they want to about them and the r checking, which are bad, and their mainers, of which they have none, but we ought to take some forethought for our grandchildren, who will scarcely be able to find an Indian to pattern their cigar store signaster.

Assen, ser Didn't Receive.—Damage sents have not fared well in the state Circuit court this term and the damages recovered have not

ASED, SET DIDN'T RECEIVE. Damage cutte have not fared well in the state circuit court this term and the damages recovered have not amounted to a great deal. The squit of Herbert C. Eumphrey vs Donald Macleay; for \$7000 for injuries alleged to have been sustained by a failing tree while plaintiff was passing defendant's property. J. S. Greensfelder vs. Ernert House, for \$1105 for injury to eye, ceuted by collision with a tree in from of Rosse's region with a tree in from of Rosse's region with a tree in from of Rosse's region with a tree in from of House's region with a tree in from of House's region with a tree in from of Rosse's region with a tree in from of Rosse's region with a tree in from of Rosse's region with a tree in from of Fortland, for \$10,000 for injuries sustained by falling over an embankment at Seventh and Morrison streats were all deaded to favor of the defendants. In the suit of A. B. Manley vs. C. Hofstetter et al for \$5000 for alleged malitious arress a verdict for \$1000 for alleged malitious arress, gr. a variet for \$200. Jurgen Jorgenson, who sought to recover \$505 from Josseph Belay for being in presented of a bouse, was awarded \$2.30 by the jury before which the case was tried. Shase Beebe, who sued Juseph Howett for \$1.00 for two dogs alleged to have been poleoned by Howett, got a variet for \$1.50 for two dogs alleged to have been poleoned by Howett, got a variet for \$1.70 for the damage cases remain to be disposed of. have not fared well in the state circuit court

URLICEN TRAPPERS —Some three months since mention was made in these columns of two trappers coming down the Wilsamette from the McKenzie, trapping on the way. They were bound for Washington territory, and mothing has been heard of team since thi one of them, Andy Hickson, arrived here yesterday. He reports that he and his companion have been trapping on the Nehatem and its branches. They shorted as eventy-firme fine beaver skins, besides other fure A chort time since they stated down the river in their boat with all their fore, trape, provisions, blankets, etc. Through the incapacity of their guide they went over a fall some sixteen feet high, smashing their boat, and losing everything except their lives and a few raw polators, on which they menaged to subsist for three days, during which it rained all the time. The beaver extra slong were worth nearly \$500, and their traps were also qui e a toss. They had a long, west train to reach the settlements, and were about as glad as any one ever was to get out of the wilderness. UNLICKY TRAPPERS -Some three months

TWINE FACTORY WANTED —A gentleman v to is largely interested in supplying nets and twines for the salmon fisheries of this clust says a twine factory would be it paying that it too here. One was started in Onkined, Cal, a short time since for making soft laid cotton twine only, and it has now more orders than it can fill. There is no trouble about rasing it is it the state, and a factory for making it into he sind of twine used in satem disting should pay here. There was some kind of a twine factory at Albany some time since, but nothing is solard of it now. Somehow the climate he e does not seem to be healthy for factories. It may be that these enterprises lack the necessary amount of capital in their organization. The For land Cordege Compuny inget try manufacturing twine, and could probatly make it pay.

Difference or Statements, Some time since an Alacka mining man named Steele came to this city and told a number of people of the says a twine factors would be a paying that a tion here. One was started in Unkland, Cal.,

since an Alaska mining man named Steele came to this city and told a number of people of the wonderfol wealth of the Yokon placers. Assisted by others, he took steps towards organizing a mining company with a capital of \$250,000, but the scheme never materialized. His representations induced a number of men to make preparations to go to Alaska, the spring, but before starting they wrote to Alaska, incuming about the minea, cos o living, and other things of interest. The answer received was not in accordance with what Mr. Steele had previously said, and revealed that his statements perfaining to the wonderful richness of the placers were greatly canggerated. Consequently the several persons whe had contemplated going to Alaska have abandoned the idea.

New FOUE-WIRE LINK,—Asson as the weather NEW FOUR-WIRE LINE, -As soon as the weather promises to be favorable for any length of time, the Western Union Telegraph Company what force of men in the field to begin work on its new four-wire line between Portland and San Francisco. Three of these wires will be it on and the fourth copper This copper wire, with woll be a quadruplex, wife work from Chicago to San Francisco wis Portland, and, tet at night, from New York to San Francisco. The construction of this line with make Portland the most important repeating point on the Farific cosst, and necessitates an addition of four men to the force of operators here. I roka will be abandoned as a repeating point, and will be colling but a way station promises to be favorable for any length of time

LIMBER THADE PROSPECTS -There is but there is no large inquiry from the best, though that section of the country fook large quantities last year. All the n the in the North west are very busy now and the prospects are west are very busy now and the prostocts are good for a spientid season. In San Francisco tos who tessale inmbes dealers have formed a very strong compact and named their nerces be now the trace of the near the next satisfied and the first the next satisfied of th

Gov. Pennoyer's Fruitless Mission to the National Capital.

Tab Behrings' Sen Cano-Oregon River and Herbor "Brejects Candemusd-The Walla Walls Reonivership. The President's Eagerness to Carry Oregon.

Washinoron, March is —Some time ago there was erested a commission composed of military composed of the rank to pass upon certain claims; composed to the rank to pass upon certain claims; comes which they had been by law given jurisdiction, and among the claims brought before them was one from the state of Oregon to reimbures that was one from the state of Oregon to reimbures that was one from the state of Oregon to reimbures that with most own was one from the state of the commission did into this thrust they had any right to consider this particular claim. It was hardly within the support ial Correspondence of The Oregonian ticular claim. It was hardly within the se third auditor of the freasury for adjudication. Included in the cisim was a large sum for interest on the money advanced by the state. Now the Soungest statesman about Washington knews that the government never pays a dollar of interest except in specific cases and where congress provides for the state, and it was not to be expected that the irrasury efficiats or any one size in the absence of specific flexistation by congress would for a moment consider the proposition of specific flexistation by congress would for a moment consider the proposition of the tractic consider the proposition of the interest and others came on here to push the matter before the taled auditor, satisfied that they would be able to bring about a reaction of the race of taxation at harms by the addiction of the state game in the filter auditor promptly three out the clind not interest, and now he has come to the conclusion that notting cau be paid out cut of a case of the state of Orezon three could be due to original claim of the could be due to original claim of the could be due to original claim of the could be due to original claim that auditor and so and the case of the state of Orezon wherever an about duel of for interest, and appropriate whenever an about duel of the interest or any string whenever an about duel of the interest or any string whenever any string whenever any about duel of the first continuous case. E The house has never been valued in your careful to fract had these filouester fishers or oan a can be a with the state of the state of

so that the regular rate of increase and corpetuation xial not be disturbed, and that every male
seal so killed shall be recorded and yield a tax of
\$3.17 into the public treasury. Is it reasonable to
suppose that the legences of these islands should be
withing to pay this tax and allow others to take
such takes without doing so and not object. Is it
developing Alaskan interests to demand the right
of "What about the atterwave dealand by Mr. Swan
in his letter between the fur seals of Cape Teattery
and those of the seal Islands of Alaska;"
"There is none. The aktus and akeletons in the
Smithsonian consection prove their identity. These
seals of the Fribpicy islands winter in the North
Pacific, south of the Aleutian chain, and summer in
Bebring sea, where they are obliged to repair to
the rookeries of the Pribpicy islands winds to breed.
They cannot breed in the cose occan."

Continuous the conversation Elliott said in refercell of the resolution before the seals, "the antice of the resolution before the seals," the ancell of the resolution before the seals," the antice of the resolution before the seals, "the antice of the resolution before the seals," the antice of the resolution before the seals, "the sailthe seal islands directly in 1870.

THE WALLA WALLA HECRIVERSHIP.

measure of 180s. The latter act was one which was to gow at the seal islands directly in 1870.

1HE WALLA WALLA HECRIVKEBHIP.

Again the president has violated the plank in the democratic plasform upon which he stood in the last presidential campaign relative to the selection of appointees for territoriat offices from the territories themselves. He has nominated David J. Wilcox, of Buffalo, as receiver of public moneys at Walla Walls. Surely it would seem that the president, in a great territory like Weenington, could find a democrat capable of filling that office. At least that is what young blencate Voorhees thinks, and he is once more disgusted with the way he has been treated by the man in the White house. The reason why the president bestowed the appointment upon Vilcox is because of a desire to restore kood feeling among the facilious into which the democracy of Oleveland's own town of bindio are soit up. The president some town of bindio are soit up. The president haspen in the state of New Dat his party in good chapp in the state. Still the democrats of Washington territory have to suffer because of this scheming. OBEGON ELVER IMPROVEMENTS.

OBROON BIVER IMPROVEMENTS.

Ing.

OBRGON RIVER IMPROVEMENTS.

The secretary of war has transmitted to the house of representatives a list of rivers and harbors throughout the country, which, in view of the great cost of the projected improvements, he does not think aboud be included in the river and harbor appropriation bill. In the list are four rivers of Oregon: Wood river, Link river, Sigalaw river and bar, and wheelest has and bar. Of Wood river, Sigalaw river and bar, and river headen has and bar. Of Wood river, Sigalaw river and bar, and river headen has and bar. Of wood river, even below the bridge crossing is a narrow, rapid stream, presendering between low banks, and with a delta month having very shoal and introduce channels. At we the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths are two to three feet, and the celta the depths of link in mountain decritus, and the celta the depths of link in mountain decribes.

THE SIUSLAW. ness on this question. Even from Pendleton an THE SIUSLAW.

Considerable space is given to the preliminary examination of Bluslaw river and bar, following which Captain Powell asys: "I understand from a limited study of the entrance that the chanuel may not only shift, but that the depths may vary considerably at different times; that is characteristic and the Captain and the C appeal is made for division—a plea from a dem-A largely increased voting population and a manimity of sentiment such as has never before been displayed, backed by a few lessons in the past and a most propitions political year in which Umanills county holds her breath for fear of the result in the forthcoming legislative body—a result which is looked forward to with anxiety by the head and front of democracy, Fresident Cieveland—all this puts in our hands a weapon which surely will be wielded should not our pressing needs be recognized. The interests of over 1500 solid taxpayers are at stake, and that old maxim of Baurbonism, "don't scratch your ticket," will not be observed. As an exchange asys, those who advocate "don't stratch your ticket," would even in such cases like to see "free and independent," Americans go to the polis like "dumb, driven cattle" and vots to reward tracellity and corruption. Nothing could be more repugnant to an intelligent sense of pattice and manily self-respect. The proper appeal to the thinking neople of to-day is a platform of cound principles supported by a ticket that does not need to be "scratched." And this is the and toward which progressive democracy is working: a platform that courte critiof the small entrance on the Oregon coast. At the Siuslaw the range of channel dopths at different Singles whe range of channel dopths at different times may be as much as from five to nine feet. I judge that annua surveys, until works for perma-nency of channel are built, would be needed for the use of masters and vessel-insurers about as much use a fingle survey is needed now for that form of sound principles supported by a ticket that does not need to be "scratched." And this is the end toward which progressive democracy is working: a platform that courte criticism and a theket that commande respect. In this is the only chance of success. All good citizens "scratch" their tickets when improper nominations are forced upon them. There is no odlum attached to the name of "bolter" or "retatcher." He has been too much of a public benefactor. With people who have the apurage of their convictions, mere party names go for ittle. The party lash has lost most of its terors, and no patricit citizen isafraid of souling comes to project a plan of improvement of the mouth."

Of Nebalem bay and bar Gapt, Powell says; "In my opinion the Nebalem river and bar are nor now worthy of improvement. No improvement giving casey access to the river for the medium-sized coasters is practicable at moderate cost of coast works. The present traffic does not warrant even this moderate cost. Tillsmook bay, having a good harbor and entrance for coasters and a wagon road from the interior, is eight miles from Nebalem sand connected with a low lide beach wagon road; there are also use traveled trails north to the Oother of the coast ittle. The party issh has lost most of its ter-fors, and no patrictic citizen isstraid of spoiling his party record by "scratching" an unworthy nomination, "Door's scratch your ticket" has no influence over thinking voters. And so, when even such as that great digni-tary, the president of these United States, would immple on our just and equitable rights, we so,, "Scratch bin!" Our watchword is "Di-'ision," and by it we will ablde until the crack of doom.

The secretary of war reports that applications for headstones for soldiers graves in Oregon and Washington territory have been received by the quartermester-general as follows: Oregon (by counties)—Baker 2, Bennon 1, Dogias 4, Muthomab 54, Polk 1, Umatilla 1, Washinston 1; total, 6. Washington territory (by counties)—Chebalis 1, Clark 1, Columbia 5, Kittias 2, Lowis 2, Snohomiab 2, Whitman 2; botal, 16,

The house committee on invalid pensions has ardered a favorable report on Bensior Dojb's bill passed by the senate to pension Lizzie Wright Owen. passed by the senate to pension Lizzie Wright Owen.
Senator Mitchell has offered an amendment which he proposes to ask the senate to add to the sundry civil appropriation bill when the same comes from the boulse. The object is to appropriate \$1271 82 for the purpose of retinbursing the city of Fortland, in the state of Oregon, for money advanced out of its general lend in payment for street improvements assessed to the United States on the custom house block in that city, between Senator Dolph has introduced a bill to anthorize the construction of a railroad bridge across the Clear Water, river, idaho, between its mouth and the boundary line of the Nex Farcs Indian reservation. It is proposed that the privilege of constructing the bridge shall be given to the Oregon Salvers & Navigation Company.

Dr. J. Mott Smith, of Beston, formerly connected with the government of Hawaii, has written a letter to a briend in this city, to whom he expresses the opinion that Claus Sprockels has had his day, and that he will never significant affairs.

spring broke, throwing nit three heavily to the ground. Miss Pigg custained several severa bruises and scratches on the head, and the rest were badly injured.

At La Grande the little son of Mr. and Mrs. Charles Barnell had his collar hone broken a few days ago. The accident is supposed to have happened a few days since when the little fellow was out taking observations of a cow. The animal in a playfit incod opset him, but it was not until a day or so later that the parents discovered that any particular Jamage had resulted. The Syear-old son of Henry Earl, of Polk covered that any particular damage had resulted. The S-year-old son of Henry Earl, of Polk rounty, who was kicked by a horse Friday, says the Salem Capitol, is more seriously injured than was thought at the time of the accident. The little fellow was playing around a horse and took hold of his tail and commenced pulling, when the animal let drive at him, the toe of his shoe striking the loy in the center of the torehead, cutting a soaly gash about three inches long and dividing the outer table of the skull, making an incision about two inches long. Dr. Holmes, who waited on the boy, thinks that he will come out all right, provided erystpelas does not set in.

The little child of Mr. and Mrs. Buck Laurance, of Grant county, which was about 2 years old, was drowned Friday by falling into

The cyring.

Mis. Joseph Robertson, of Mi. Vernon, Grant county, met with a mishap the other day by the team running away with herself and Mr. Robertson, resulting in the breaking of her shoulder, or collar bone, in two places.

At Olympia a few days ago as Henry Buchanan was at work in a cab, a wrench with which he was tightening a nut gave way and threw him teadlong through the cab window on his head outside. He had a very narrow escape from serious Inlury.

sertious injury.

Long Creek Eagle: A few days since while
Mr. Henry Lofton and wife were riding into
Long Creek from Fox, the wagon suddenly
upaet, and Mr. Lofton, who held after grip on
the relna, was considerably injured by being
dragged several yards. Mrs. Lofton escaped

JACKSON COUNTY NOTES.

Considerable improvement is new going on

In Jacksonville.

Sickness has disappeared at Asbland, and the public schools are again in session.

Farmers have generally finished sowing grain at a large area has again been put in.

S. Veatch, of Cottage Grove, the brakeman who was so severely hurt, at Medford, not long since, is able to be about again.

The timber belt on Rugue river is attracting attention and will be utilized sooner or inter, as it has no superior, quality considered. Several parties have been examining it is sely.

The produce market is guited all. Wheat, es-

The produce market is quite dull. Wheat, especially, is a drug, there being very few sales, at the warehouse there is no movement either, prices being below 50 cents a bushel, at which our farmers decline to cell.

A new locomotive has been put on the narrow range road between this city and Dixie, the old ore having been sent East for repairs, says a Walla Walla paper.

The three-stall round-house at Hornbrook, Col., is up now and receiving its iron roofing. To e car repairer's dwelling-house at that place is also under course of construction, says the Yorka Union.

Ashland Tidings: It is reported that a party of Southern Pacific railroad surveyors started out from Montague this week, for a preliminary

out from Montague this week, for a preliminary servey of the proposed branch line up the Klamath river. Rismath river.

Jacksonville Times: Surveys for the switch
and side-trank at Talent are being made. The
citizens of that section have subscribed enough
to buy the seven acres of land required by the

railroad company,
Walla Walla Journal: M. D. Egbert returned wana wana sournar. In the spectre terrines from Seattle to-day, accompanied by C. W. Hunt, the railroad man. A special meeting of the board of trade has been held for the consideration of the new railroad project.

DANGEROUS FENCE,

DANGEHOUS FENCE.

Two very serious accidents have occurred within the past two weaks, caused by wire fences, anys the Milton Eagle. One was reported last week. On Friday night Wm. Miller and Elils Ireland were driving home from a dance at Weston, and when opposite the farm of J. S. Richey one of the horses became unruly and a line broke in two. The team plunged to one side and one of the animals fell against a wire fence, cutting his throat in a severe manner. Blood flowed in profusion from the wound and soon the animal betame so weak that life was feepaired of. Dr. Stone succeeded in stopping the bleeding and saving the horse, in Washington terrifory there is a general law which designates a legal wire fence and compels the owners to use rais as a protection to stray stock or travelers. Why the tyregon law of like nature only applies to counties west of the mountains (excepting Union) wed on not know. A law should be passed at the next legislature compeling people to use rails on their fences, at least where they run parallel to public high-ways. J. Frayne, remescate by Leeking, Misser, Misse

POLITICAL NOTES.

A republican club has been organized at Mc-Minnville.

Minaville.

The Yambill county democratic convention met in Lafayette Wednesday and selected the following delegates to the state convention to be held in Pendleton Treeday, April S: H. L. Hesth, Wu. Bradshaw, John Bridewell, W. D. Hartson, P. H. Meseinger, C. C. Parguson.

A mass convention of the probibition party will be beld in Lafayette, March 80, 1883, at 10 o'clock A. M., to nominate a full county ticket to be voted for at the coming election. Waiter T. Mills, of Ohio, is expected to be present and address the convention on the issues of the day. For the cure of all female disorders and irregularities, Ayer's Barsparilis has no equal.

Remaining in the postomee at Portland, Oregon, March 25, 1888. Persons calling for these letters will please stars the dame on which they are astwa-tic. They will be charged for at the rate of one contract. WOMEN'S LIST.

REMARKABLE CURE

Of a Lady of a Tumor in the Stomach-Other Statements from Promisent People in Portland.

People in Portland.

To the Editors of the Portland Papers—Sirs: Prior to calling on Drs. Darrin, one year ago, I had been under medical treatment with eminent physiciams of San Francisco, trying to get cellef from my sufferings, which was called by the doctors a tumor of the stomach, which effected my head, producing a constant pain for over twelve years, so that life became a burden to me, and my suffering almost unbearable. Ail of this time was trying everything that was recommended, as well as being under physicians' care a portion of the time, without any relief, whalever, and growing worse. In this condition I consulted Drs, Darrin as to my case, and they told me they thought they could care me. Now, after two months' selectro-magnetic treatment, I consider myself quite cured, can rest well, eat well, am free from suffering. Words fall to express how thankful I am to the doctors for their skill and power to reccung me from death's door, from suffering to one of health and ease. Will cheerfully recommend Drs. Darrin to the public generally, as their method of treatment will cure where all others fall. Can be referred to at my home, Freenh Gulch, Shasta county, California.

MRS. S. A. HOOPER.

To the Portland Public:

To the Portland Public:

Before calling on Dr. Darria two months ago
I had been sifficted with liver and kidney
trouble, which had debilitated me so I could
not attend to my doties as manager of the White
House. General nervous debility and other
troubles which I will gladly explain to any one,
broke me down in hea th. I am now glad to
state to all that Dr. Farrin's electro-magnetic
treatment bas rectored me to health. I can be
seen at the White Houseany day.

THOMAS H. SMITH.

Mr. R. O. Terry's Statement. Mr. Bultor: Since Red! I have been seriously stilleded with stemach, kidney and liver troubles, nervousness, and partial deviness. Through Dr. Darrin's freatment I am restored, and my dealness nearly cured. I can be referred to at the Occidental hote, Portland, for two weeks. Have resided in Eliensburg, W. T., neat ten years. H. O. TERRY. past ten years.
